

Drainage hole guidelines

DRILL

For outdoor installations, or where rain or irrigation can collect inside.

DON'T DRILL

For indoor use, or when planting in a liner.

Number of holes by size

UP TO 12"	13-24"	25-36"	37-48"	49-60"	OVER 60"
					
1 hole	2 holes	3 holes	4 holes	4-5 holes	+1 per 12"

Placement by shape

Square & Rectangle

Center of each panel between support braces.

Round

Space holes evenly around the base.

Drilling steps

- 1 Turn the planter upside down on a padded surface.
- 2 Mark each hole using the guides above and at right.
- 3 Using a 1/2" masonry bit, drill slowly with light, steady pressure.
- 4 Clear dust.

SPECIFY WHEN ORDERING

Pre-drilled on request

Drainage holes can be added to any COSAPOTS planter before it ships so it arrives ready to install.
